

January 27, 1950

South and West Field Irrigation Co.
Cedar City, Utah

Gentlemen: RE: COAL CREEK DISTRIBUTION

This acknowledges receipt of your letter written on the bottom of my letter dated November 18, 1949, in which you state that plans and specifications for the structures required before the 1950 irrigation season will be forwarded to this office without delay.

This is to remind you that these plans and specifications have not been received, as of this date. Kindly submit them at once in order that they may be approved and construction completed before the irrigation season.

Yours very truly,

Harold A. Linke
STATE ENGINEER
